

Two and Four Sided Universal Push Off Blade Type Extraction Tools

Two Sided - Complete Tool

Teeth Only

 Pry Out Extraction Tool
Part #1107

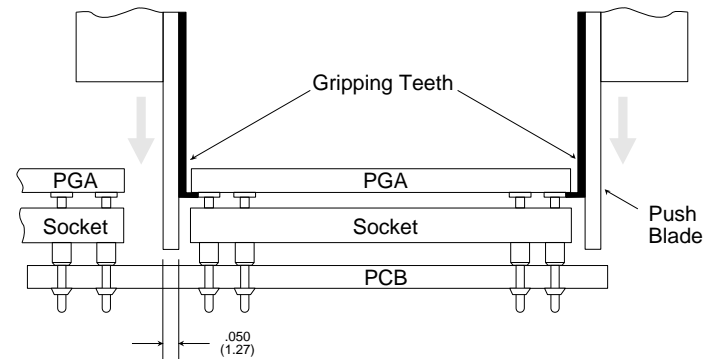

Four Sided - Complete Tool

Features:

- Will fit between tightly placed PGA devices.
- Universal slide and lock bar allows use with PGA packages of any size.
- Rugged construction.
- Replaceable teeth allow cost savings on tools by ordering one complete tool and only additional teeth to meet your requirements.

How to Use:

- Place gripping teeth of tool under PGA and tighten locking screws on cross bar.
- Twist two large black knobs at the same time until push blades press on PCB and lifts PGA out of socket.
